

ETHNICITY

Executive Summary

The ANZDATA Advisory Committee and Clinical Working Groups agreed to the new data collection elements and these were implemented within the Online Electronic Data Collection tool (<https://services.anzdata.org.au>) and as a new A3 Survey and ancillary (A4) paper forms. Refer to the Registries Data Set Specification Document for more information. Friday10

Data Element

The variable 'Racial Origin' within the ANZDATA Patients table, is no longer collected and in place is the item Ethnicity. As a patient can identify with more than one ethnicity, there is a primary and secondary Ethnicity variable ('Ethnicity 1' and 'Ethnicity 2'). The Australian Bureau of Statistics (ABS) and the NZ Stats ethnicity classifications have been mapped to these fields. This enables an expanded list to be used for reporting patient ethnicity.

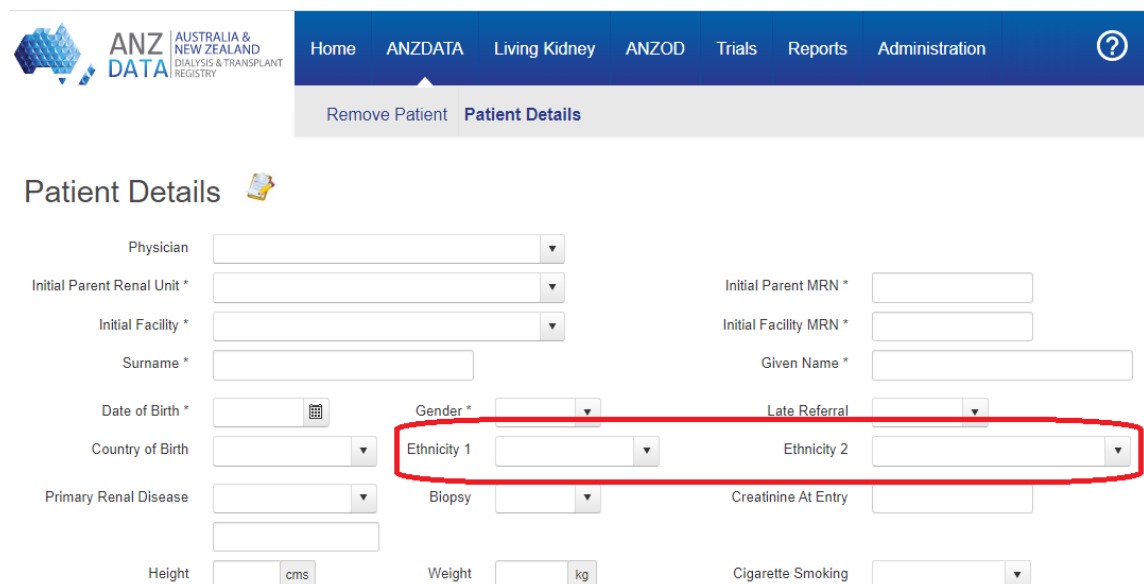

Collection of Data Element

Data is collected in real-time for NEW patient registration and at survey if missed at the time of registration. All reported Racial Origin and Ethnicity codes collected prior to 2019 remains unchanged on the database.

Figure 1 – Paper Form – Ethnicity Collection

PRIMARY RENAL DISEASE (Record from list)		BIOPSY	SE.CREATININE LATE REFERRAL		HEIGHT (cm)	WEIGHT (kg)
OTHER -		Y/N		<3 MONTHS BEFORE FIRST TREATMENT (Y/N)		
COUNTRY OF BIRTH (If Australia or NZ - Tick box)			ETHNICITY 1 (Record from list)		ETHNICITY 2 (Record from list)	
AUST	NZ	OTHER COUNTRY (Specify)	CODE	OTHER (specify)	CODE	OTHER (specify)
			(required)		(optional)	
CIGARETTE SMOKING						
						N=Never F=Former C=Current

Figure 2 – Screen View - Ethnicity Collection

The screenshot shows the ANZDATA web application interface. At the top, there is a navigation bar with links for Home, ANZDATA, Living Kidney, ANZOD, Trials, Reports, and Administration. Below the navigation bar, there are buttons for 'Remove Patient' and 'Patient Details'. The main content area is titled 'Patient Details' and contains a form with various fields. The 'Ethnicity 1' and 'Ethnicity 2' dropdown menus are highlighted with a red box. Other fields include Physician, Initial Parent Renal Unit, Initial Facility, Surname, Date of Birth, Gender, Late Referral, Country of Birth, Primary Renal Disease, Biopsy, Creatinine At Entry, Height, Weight, and Cigarette Smoking.
